UNIVERSITÀ
DEGLI STUDI DI MILANO-BICOCCA

COURSE SYLLABUS

European Administrative Law

2627-2-F6303M017

Learning objectives

1. Knowledge and understanding
   Demonstrate an in-depth knowledge of the functioning of the European administration and the implementation mechanisms of EU policies within the Italian national context
   Understand cutting-edge topics and current debates in European administrative law, with a specific focus on the theoretical and regulatory foundations of the Green Deal
2. Applying knowledge and understanding
   Be able to apply European administrative models to the Italian institutional reality, demonstrating a professional approach in solving problems related to the implementation of EU policies
   Use the acquired knowledge to operate in interdisciplinary contexts related to the ecological transition and new challenges in administrative law.
3. Making judgements
   Develop the ability to gather and interpret regulatory and jurisprudential data to formulate autonomous reflections on ongoing debates in European administrative law
   Integrate knowledge to manage the complexity of EU policies, including reflection on the social and ethical responsibilities related to the implementation of the Green Deal
4. Communication skills
   Be able to communicate clearly to both specialist (jurists, officials) and non-specialist audiences regarding the dynamics of the European administration and the solutions identified for the implementation of EU policies
   Present with logical rigor the rationale and underlying principles of European administrative reforms and sustainability strategies
5. Learning skills
   Have developed learning skills that allow for continued autonomous study and updates on the evolutions of administrative law and future European directives
   Be able to independently explore new research areas or emerging professional fields related to the management of European public policies

Contents

Lessons and workshop in class will focus on EU adminstrative law, which includes analysis of the main forms of administration through which policy is delivered .

Detailed program

Particular attention will be devoted to:
the principles of European administration;
the administrative organization of the European Union;
European administrative procedures;
sector-specific topics, including Environment and the Energy Transition, Food Safety and Public Health, Transport, the Internal Market, Migration and Border Management, and Digital and Algorithmic Regulation.
Detailed program will be discussed in class during the first lesson and will be then shared on line on the e-learning.
Lessons will be held in class.
Attending students will be asked to present materials during the lessons.
