UNIVERSITÀ
DEGLI STUDI DI MILANO-BICOCCA

COURSE SYLLABUS

Legislation and Regulations

2627-1-K0103D003-K0103D00304

Aims

By the end of the course, students will be familiar with the main regulations governing healthcare organization, professional practice, and midwifery training, and will understand their significance and impact on professional development.

Contents

Overview of legal sources. Key regulations of the National Health Service (SSN). Key regulations regarding professional practice and midwifery training. Students will be able to apply their knowledge of the profession's regulatory evolution as a framework for understanding professional practice.

Detailed program

Health as a fundamental right. The law establishing the National Health Service (NHS) and subsequent reforms, from the 1970s to the present day. Healthcare professions and their specific scopes of practice and responsibility. Healthcare profession management/leadership. University education, continuing medical education (CME), professional orders/associations, patient safety, and professional liability.
