SYLLABUS DEL CORSO

Introduzione al Management Ostetrico

2627-1-K0103D004-K0103D00406

Aims

The course aims to provide students with the knowledge and skills required to interpret different care settings and to develop planning and coordination projects for midwifery care models in accordance with the principles of effectiveness and efficiency. The most appropriate care settings will be analysed in relation to the level of care complexity.

Contents

Understanding organisational models for midwifery care. The concepts of care complexity and intensity of care. Hospitals organised according to the “hub-and-spoke” model.

Detailed program

The midwifery management process. The departmental organisational model: roles, activities and types of departments. The organisation of the Maternal, Infant and Paediatric Department, including the structural, technological and organisational requirements established by Ministerial Decree of 24 April 2000. Implementation of the Maternal and Infant Health Objective Project (POMI). The Agreement of the Unified Conference between the State and the Regions, dated 16 December 2010. The managerial and coordination roles of midwives within the Maternal and Infant Department. Birth centres and the different organisational models in the Italian and international contexts. The organisation of midwifery care in low-risk birth areas (BRO) and autonomous management of low-risk births (BRO).

Prerequisites

None

Teaching form

Two interactive, four-hour face-to-face sessions delivered through lecture-based teaching.

Textbook and teaching resource

Guana M., La disciplina ostetrica: teoria, pratica e organizzazione della professione, McGraw-Hill, 2011;
Calamandrei C., Orlandi C., Pennini A., Porcelli B., Casati G. Manuale di management per le professioni sanitarie (2025) Milano: McGraw-Hill;
Ministero della Sanità, Decreto Ministeriale 24 aprile 2000 Adozione del progetto obiettivo materno-infantile relativo al "Piano sanitario nazionale per il triennio 1998-2000";
Presidenza Del Consiglio – Accordo tra Governo-Regioni 2010, Linee di indirizzo per la promozione ed il miglioramento della qualità, della sicurezza e dell'appropriatezza degli interventi assistenziali nel percorso nascita e per la riduzione del taglio cesareo

Semester

First year, second semester

Assessment method

Written examination consisting of multiple-choice and/or open-ended questions, and assessment of assignments or practical activities relating to the organisational and managerial analysis of healthcare services.

Office hours

By appointment, arranged with the lecturer via email.
