SYLLABUS DEL CORSO

Oncologia Medica

2627-1-K0101D004-K0101D015M

Aims

The purpose of the course is to present the most recent advances in oncology research. The course, that is part of the Methodology of Research teaching, aims also to discuss examples of research and to evaluate methods, results and main implications for nursing and midwifery research and practice.

Contents

To know the recent advances of research in the specific clinical area.

To identify implications for nursing and midwifery research.

Detailed program

Recent developments in oncology research.

Methods and tools used in oncology research.

Implications for research, even nursing and midwifery research, in the field of oncology.

Prerequisites

Defined by the Degree Regulation.

Teaching form

Lectures and class discussion.

Textbook and teaching resource

No books but research papers chosen by teachers are presented and discussed during class.

Semester

First year, second semester

Assessment method

The examination is not for the single module but it is an integrated examination for the whole course, as described in details in the Syllabus of the Course.

Office hours

Agreed with teacher by e-mail.

Sustainable Development Goals

GOOD HEALTH AND WELL-BEING | QUALITY EDUCATION | GENDER EQUALITY
