COURSE SYLLABUS

Research in Sustainable & Alternative Finance

2627-111R013

Title

RESEARCH IN SUSTAINABLE & ALTERNATIVE FINANCE

Teacher(s)

Monica Rossolini
Barbara Del Bosco

Language

English

Short description

The course explores the widespread digital innovation in the financial sector and, in particular, the development of Fintech companies and Blockchain assets. Students will develop an in-depth view of Fintech market participants, regulation, and how new digital innovation has enlarged payment, investment, and financing opportunities for companies and individuals. The course allows students to understand (1) the Fintech landscape and how fintech has changed the relationship with traditional banking services; (2) the applications of digital technology such as crowdfunding and token offerings along with the traditional subjects (venture capital, business angels, accelerators, ...) in the entrepreneurial finance domain.

CFU / Hours

1 credit / 8 hours

Teaching period

The teaching period will be agreed upon between teachers and students.
