SYLLABUS DEL CORSO

Introduction to NGS Methodologies for RNA Analysis

2627-121R013

Title

Introduction to NGS methodologies for RNA analysis

Teacher(s)

Prof. Rocco Piazza and prof. Emanuele Azzoni

Language

English

Short description

The course focuses on Next Generation Sequencing technologies applied to transcriptomic analyses of differential expression, with particular reference to bulk RNA-Seq, single-cell RNA-Seq and spatial transcriptomics technologies.

CFU / Hours

1 CFU / 8 hours

Teaching period

Friday, 25 June 2027, 9:00 AM – 6:00 PM

Sustainable Development Goals

GOOD HEALTH AND WELL-BEING
