# Awareness

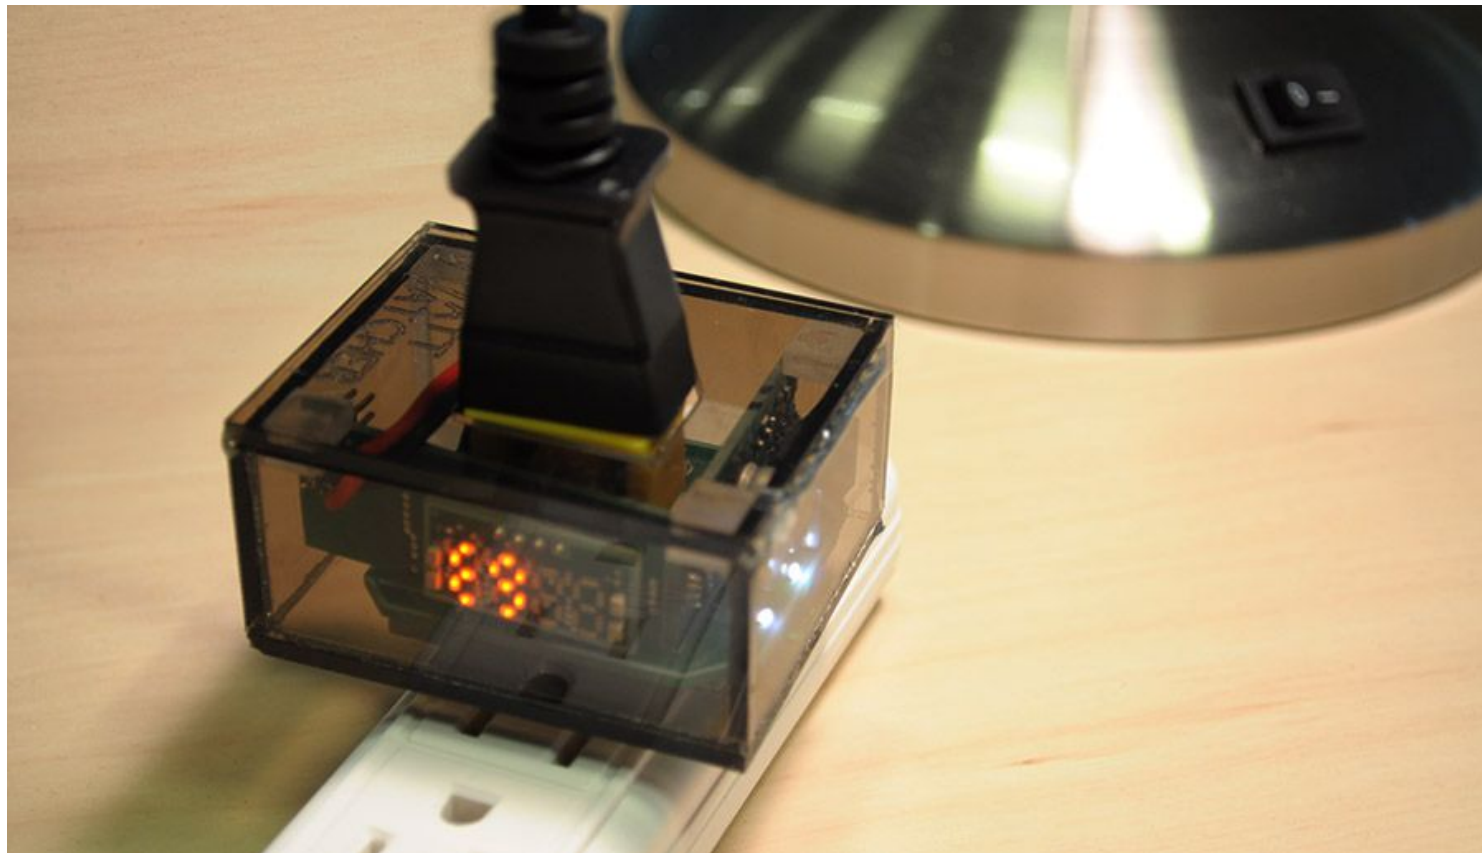

Come veicolarla all'utente?

# SpaceMarks

Permette di organizzare spazialmente bookmark e email

# Watt Watcher

Visualizza i consumi dei dispositivi

# Nabaztag

“collegato” in rete con gli altri conigli, visualizza e parla

# PillowTalk

“collegato” in rete con gli altri cuscini, adatta la visualizzazione

# Pileus

*The Umbrella Photo Browser to Relay Experiences in Rainy Days*

# Financial sixth sense

Vibra ad ogni transazione

Oppone resistenza  
all'apertura se si va  
fuori budget

Si gonfia/sgonfia in  
base al saldo del  
proprio conto

# ReflectOns

Da feedback riguardante gli acquisti, direttamente dalla carta di credito

# Spotlight

*To a viewer of the installation, these "random discussions" create a sense of "social dynamics". The viewer can interrupt the group dynamics at any time, by selecting one of the 16 portraits. The remaining 15 portraits automatically react and direct their attention to the viewer-selected portrait, which reacts with a special gesture - "being the center of attention"*

# Influence

*Influence is an interactive artwork visualizing how collective behavior emerges from decentralized interaction in a small social network.*

*Each portrait has a predefined threshold level for “catching the yawn virus” from a neighbor portrait. The viewer interacts with the portraits by selecting the first portrait that will yawn.*

# LuminAR

Proietta e permette interazione con le superfici.  
Aumenta le informazioni a disposizione

# Shutters

*composed of actuated louvers (or shutters) that can be individually addressed for precise control of ventilation, daylight incidence **and information display***

# Riflessione

Awareness

Context-based  
awareness
