Erasmus programme opportunities aa 2025/2026 e 2026/2027

# Master Students (II level)

## 3 Possibilities

- spend a period **to attend courses, sit exams** at an **EU University**. (Inter-institutional agreement between UNIMIB and the receiving Institution is required)
- spend a period in an **EU** university or institution or company to carry out **practical activities**. (A prior inter-institutional agreement is not required)
- spend a period in a university or institution or company **outside the EU** to carry out **practical activities**. A prior inter-institutional agreement is not required.

Possibly exams but only at universities with a valid previous institutional Agreement (not available at present!!)

### Funding instruments

1 - Erasmus study

2 - Erasmus Traineeship

3 - Exchange Extra-UE

3 different calls according to the type of experience

**TOTAL: 12 months are available for the Erasmus mobility during the Master**

## Course Presentation

The **Master's Degree Programme in Marine Sciences** offers an international curriculum taught exclusively in English, welcoming both Italian and international students. It is part of the Master's Degree class in Environmental and Territorial Sciences and Technologies (LM-75), lasts for two years, and requires the completion of 120 university credits (CFU) for graduation.

This programme provides students with a robust cultural and methodological foundation across biological, chemical, ecological, Earth sciences, legal, and geographical disciplines related to the marine context. It particularly emphasizes analyzing natural processes, anthropogenic impacts, and environmental changes affecting marine areas, aiming to foster the conservation and sustainable utilization of marine resources. Detailed exploration of legal frameworks governing marine regions, integrated coastal zone management, and marine spatial planning is included, utilizing advanced cartographic tools and contemporary digital systems.

Hands-on fieldwork and laboratory analyses enhance students' grasp of marine ecosystems' complexities. The course embodies a strong multidisciplinary and interdisciplinary approach, integrating geosphere, hydrosphere, biosphere, and atmosphere, ensuring coherent subject connection through collaborative activities led by faculty. Graduates will possess the ability to independently create tailored solutions and strategies, leveraging their expertise in scientific fields (chemistry, biology, ecology, and Earth sciences) as well as humanities (international law, geography, sociology). This equips them to analyze natural processes and environmental risks, comprehend state obligations and rights, and devise effective management policies to prevent, monitor, and alleviate anthropogenic impacts on coastal and ocean environments.

#Iday2025- 25 novembre 2025

Il 25 novembre 2025 si svolgerà presso l'Aula Magna l'annuale International Day. L'evento, organizzato dal Settore Affari Internazionali con la collaborazione dei Bicocca University Angels, è aperto a tutti gli studenti interessati a conoscere i **Programmi di Mobilità Internazionale** dell'Università degli Studi Milano Bicocca.

L'evento in Aula Magna, con inizio alle ore 10:00, prevede la partecipazione di:

- Prof. Giuseppe Gorini, Pro Rettore all'Internazionalizzazione;
- Dr. Dora Longoni, Capo Area per la Didattica e Servizi agli Studenti;
- Dr. Agnese Cofler, Capo Settore Affari Internazionali;
- Dr. Giancarlo La Pietra, Capo Settore Diritto allo studio;
- Dr. Emanuela Locatelli, Ufficio Erasmus.

Interverranno come ospiti:

- Dr. Daniela Maria Romero Ortega Global Mobility Gruppo Mapei
- Dr. Sofia Aprili Talent Acquisition Gruppo Mapei

In prossimità dell'Aula Magna saranno presenti dei desk presso cui sarà possibile porre ulteriori domande su eventuali dubbi.
