MASTER'S DEGREE COURSE IN MARINE SCIENCES

THE STUDY PLAN

Writing Guide

What is a study plan?

A study plan is a set of compulsory educational activities, activities provided as elective extras and educational activities chosen independently by the student in accordance with the Teaching Regulations of the Course of Study.

Typically two types of plan are offered, "da approvare" (to be approved) and "pre-approvato" (pre-approved).

The **da approvare** plan allows you to choose classes from other Courses at the University as free-choice exams in addition to those from your Course. This type of plan, which is "proposed" after confirmation, must be approved by the Teaching Coordination Council of your Course after the submission deadline; only then will it be included in your career plan.

The **pre-approvato** plan allows you to include activities recommended by your Course of Study as free-choice exams. The plan is therefore automatically approved, without it needing to be reviewed after submission deadline.

When is it completed?

When enrolling, you are automatically assigned a study plan called the statutory plan, which includes all compulsory educational activities. Subsequently, during the periods established by the University, usually November and March, you will be required to submit a study plan indicating your optional and free-choice activities in line with the number of credits to be acquired as well as any constraints and prerequisites set out by the Teaching Regulations of your Course.

A detailed and annually updated calendar is available online at https://www.unimib.it/servizi/segreterie-studenti/piani-degli-studi/area-scienze in the "AVVISO PRESENTAZIONE PIANI DI STUDIO" document (STUDY PLAN SUBMISSION NOTICE).

How is it submitted?

The plan must be submitted electronically through the Online Student Registry at https://s3w.si.unimib.it/Home.do
After submission, you must confirm the plan by clicking on the CONFERMA button.
Plans left in draft form (bozza) are not reviewed. You may complete it online as long as you are currently enrolled.

Students not currently enrolled must submit a paper form to the Careers Office, at the following address: segr.studenti.scienze@unimib.it.

Can I change my chosen plan?

You may change the plan, but only during set periods, usually in November and March.

Until the new study plan is implemented, you are obliged to follow the previous plan and cannot register for exams in classes you have requested to join.

You can **only** take exam assessments for an educational activity if it is in your most recent approved study plan. Exams taken **cannot be removed** from the plan.

Sitting exams (Art.13 Student Regulations)

Students may sit exams that are included in the approved plan and refer to the year following the year of enrolment by requesting the Science Department's Careers Office to include them in their transcript, but only if the classes have commenced and if they have acquired at least 50% of the **CURRICULAR** credits in the year of enrolment while complying with any prerequisites, as per the Course Teaching Regulations.

Free-choice exams may be sat, regardless of the number of credits acquired, by accessing the "Exams available" section on the homepage of your personal page, then clicking "Ricerca appelli" (Search for exams) under the list of exams displayed, (see slide 16).

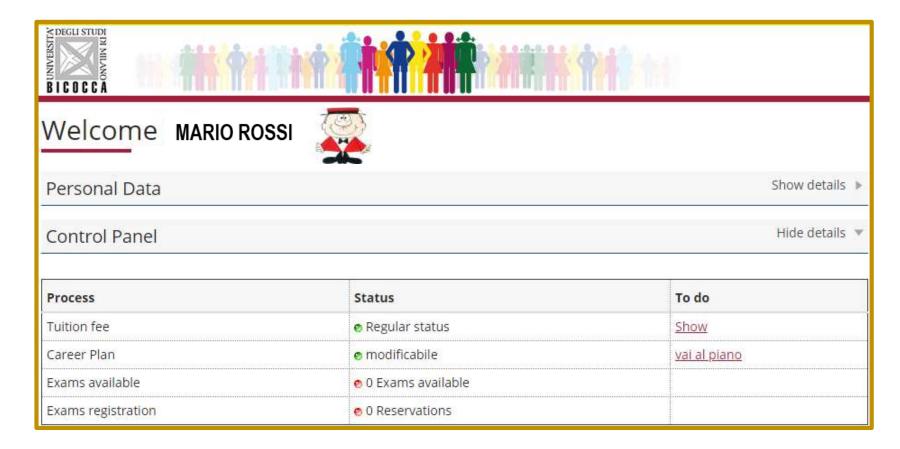

How do you fill it out?

To access it, log in at https://s3w.si.unimib.it/Home.do

This page shows the career(s) associated with your name. Select the active one to start.

While the plans are open, the study plan can be modified: click on "vai al piano", (go to plan) (fig.1).

This screen shows the so-called statutory study plan (fig. 2) which includes activities and classes compulsory under the Teaching Regulations of the Course. First-year activities are marked "Frequentata" (Attended) as the plan is already associated with your career plan. Click "Modifica piano" (Edit Plan) to continue.

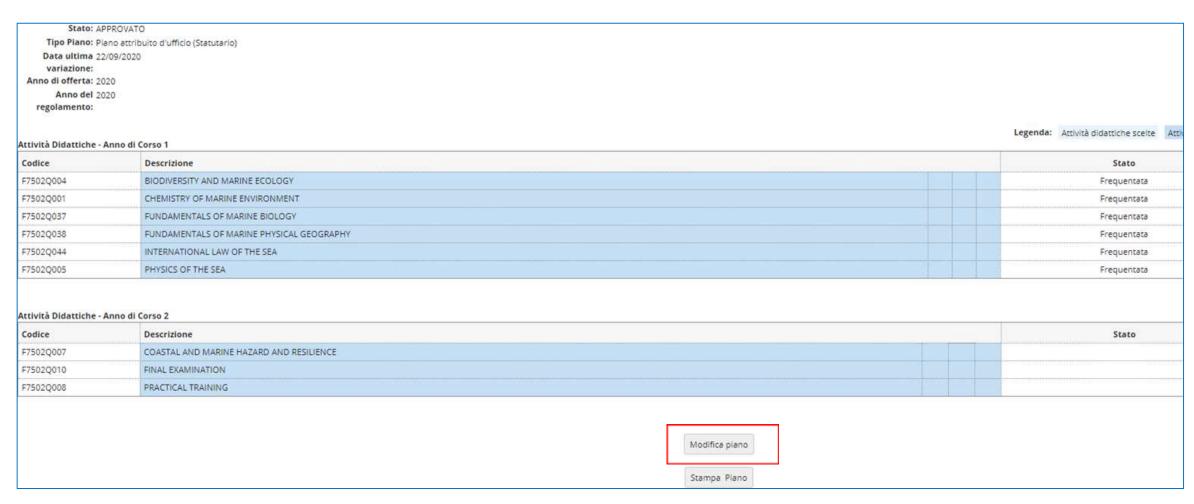

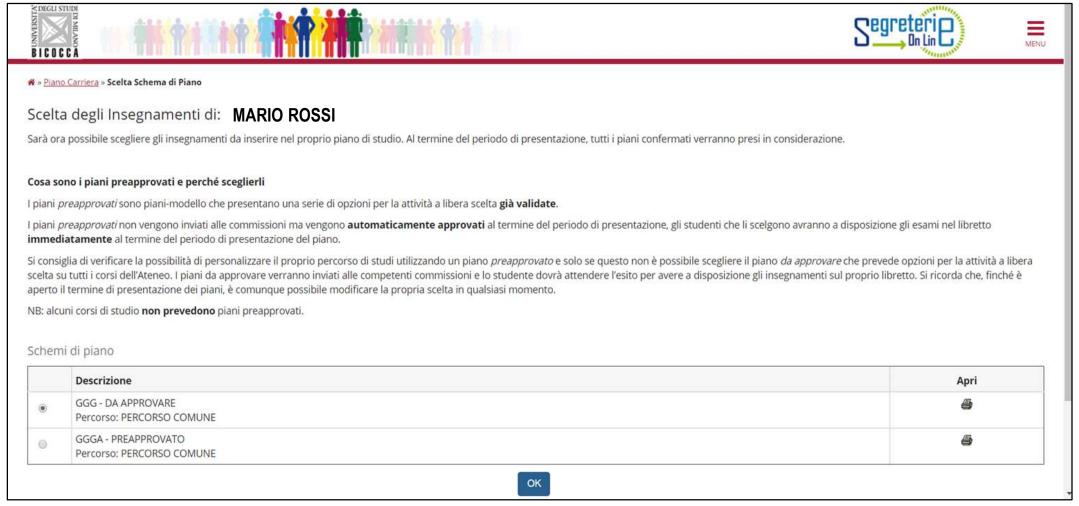

Fig. 2

You will be asked to choose between two types of framework, as previously described: GGG - DA APPROVARE or GGGA - PRE-APPROVATO.

PLAN TO BE APPROVED: Select GGG-DA APPROVARE and click OK (fig. 3).

Click "Prosegui compilazione Piano Carriera" (Continue with Career Plan) to proceed (fig. 4).

The following section lists and ticks compulsory **first-year** classes and their credits (fig. 5). *Click "Regola succ."* to continue filling in the plan.

In this section, you must select **two** <u>similar or supplementary</u> 6-credit **first-year** classes from the list (fig. 6). After choosing, click "Regola succ." to continue.

NOTE: All your selected and compulsory activities can be seen at the bottom of each page while you are filling in the plan (e.g. Fig. 6)

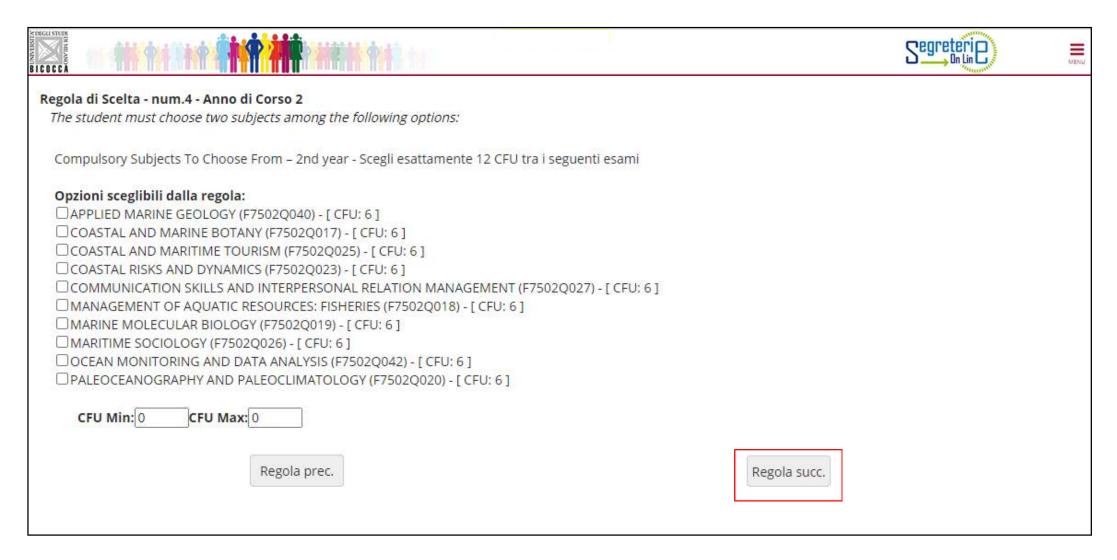

Fig. 6

The next section lists and ticks all compulsory **second-year** activities, including the Final Assessment worth 28 credits and the 4-credit work placement (figure 7). Click "Regola succ." to continue filling in the plan.

In the next section, you must select **two** <u>similar or supplementary</u> 6-credit **second-year** classes from the list of activities shown here (figure 8).

Click "Regola succ." to continue filling in the plan.

Additional Language Skills

4 "additional language skills" credits are acquired according to the procedures set out below:

Italian Students:

- passing a B2 level University foreign language assessment, in either FRENCH, SPANISH or GERMAN, or
- passing a C1 level University language assessment in ENGLISH.

In both cases, students who already hold certificates issued by Bodies accredited by the University that attest to language skills at a level equal to or higher than B2 for French, Spanish or German, or equal to or higher than C1 for English, will be exempt from the assessment and awarded the required credits.

Foreign Students:

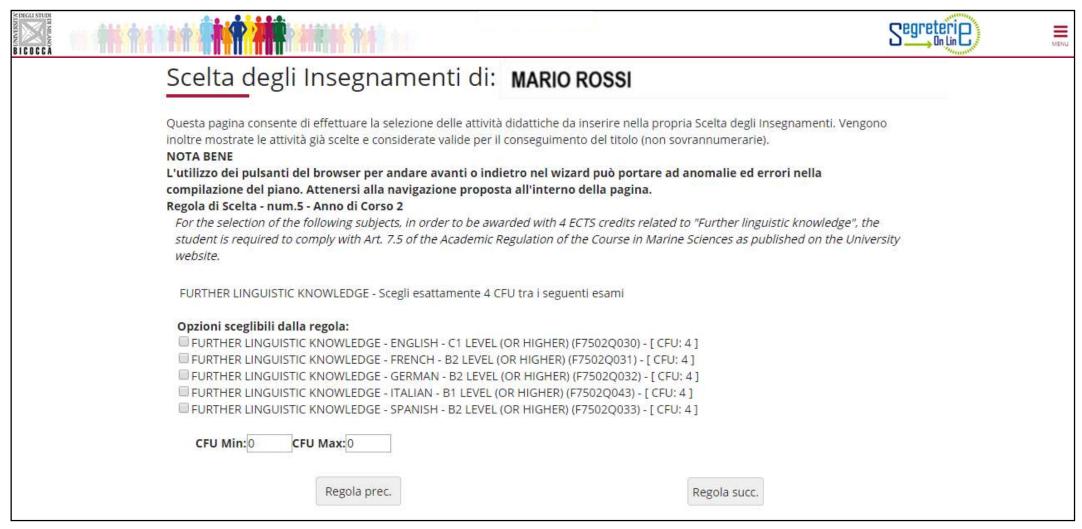

- passing a **B1 level** University language assessment in **ITALIAN**.

Students who already hold a certificate issued by a Body accredited by the University attesting to their language skills, with a level equal to or higher than B1, will be exempt from the test and awarded the required credits.

Information on how to take these tests is set by the University and available on the University's website at: https://www.unimib.it/didattica/lingue-unimib.

In the next section you must select a 4-credit additional language skills activity in accordance with the Course Teaching Regulations (figure 9).

Click "Regola succ." to continue filling in the plan.

FREE-CHOICE ACTIVITIES

Over the next sections, starting with the exams taken during ERASMUS (fig. 10), you are asked to choose the modules offered by your Course and/or other University Master's Degree Courses to obtain **free-choice credits**, as provided for by the Teaching Regulations of the Course, for a total of **12 credits**.

NOTE: if you select free-choice courses with a sum of 12 credits, you cannot gain further credits. However, if you select exams with credits exceeding 12, for instance a 6-credit exam and an 8-credit one, you may "exceed" the 12-credit limit, up to a maximum of 16 credits.

This figure illustrates the procedure for booking exams for free-choice activities.

To begin registering for the exam:

- Click on the **Prenota** (Book) option in the Appelli
 Disponibili (Exams Available) section shown on your
 Online Student Registry homepage.
- On the next screen listing available exams, select ricerca appelli (search for exams).
- Select a free-choice activity
- 4. Proceed to registering for the exam.

Use this section (fig . 10) if you are participating in the ERASMUS programme and if your Learning Agreement includes free-choice activities that do NOT correspond to exams offered by our University. You may choose up to 12 credits. If you are using this section, click "Regola succ." to continue.

If you do not wish to select any activities, click "Salta la scelta" (skip choice) to move on.

Extra Credits

Master's Degree students may include extra activities in their study plan for up to a maximum of 16 credits.

The purpose of adding extra credits is to include these already recognised credits in your career plan which have been gained by passing exams relevant to **teaching** (FIT* pathways) or **cross-discipline activities offered by the university,** which allows them to be included in the Diploma Certificate.

Credits and marks obtained through additional classes are not counted toward your exam grade point average, but are recorded in your Master's Degree course career plan.

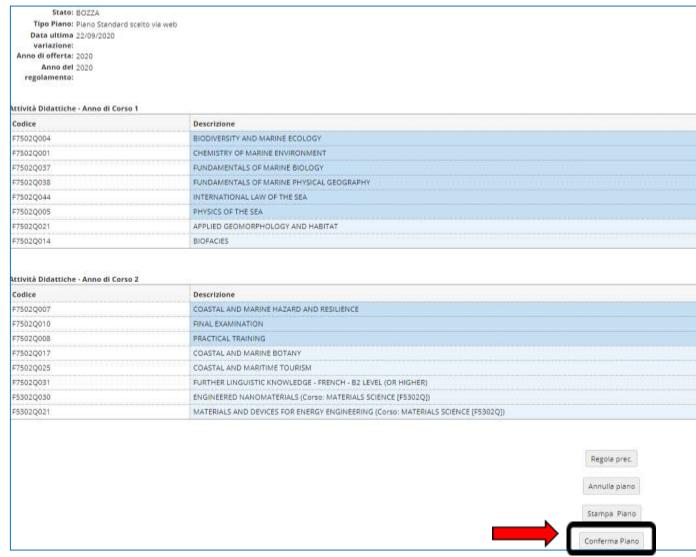

Students must send an acknowledged <u>written request</u> to the Careers Office during a study plan submission period to have their extra credits included in the study plan.

*FIT Pathways

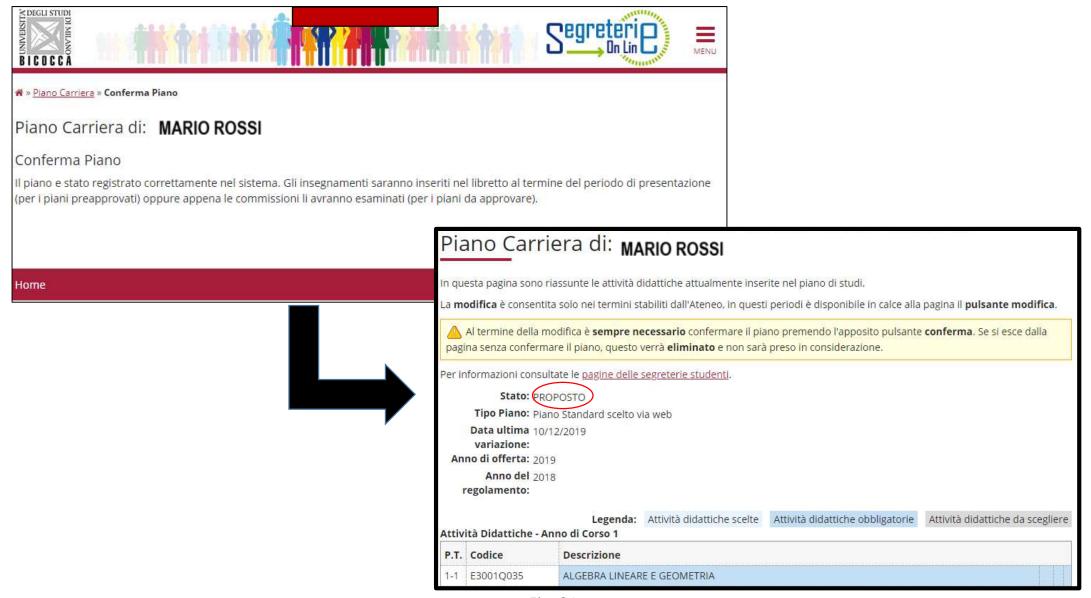

For detailed information on pathways, visit the University's webpage at https://www.unimib.it/didattica/formazione-insegnanti-ed-educatori/percorso-24-cfu, or write to fit@unimib.it

Once you have finished making your choices, click "Conferma Piano" (fig. 20) to confirm and register your plan. The classes you have selected will appear on your transcript once they have been reviewed by your course's Teaching Coordination Council.

PLEASE NOTE: Plans left in draft form (bozza) are not reviewed.

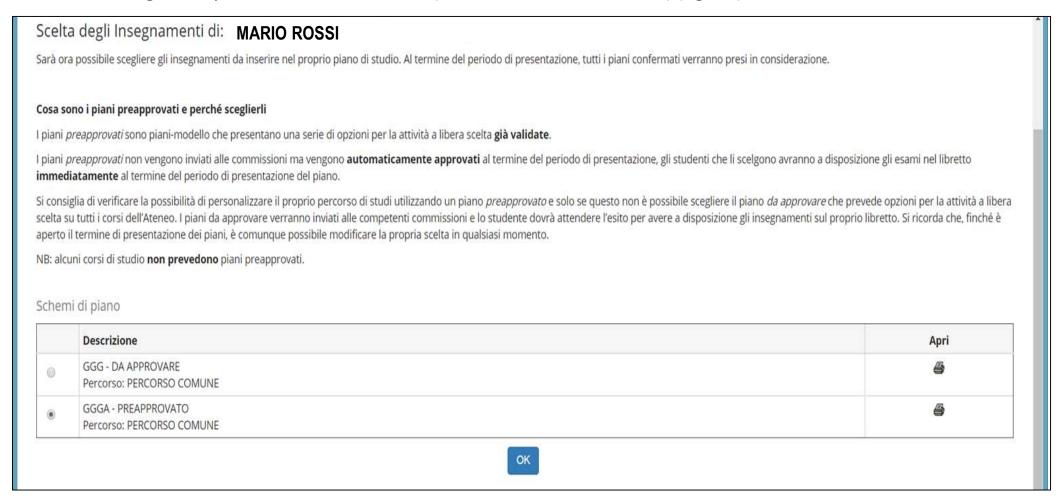

At this point your plan will be registered in the system and will appear as <u>PROPOSTO</u> (proposed) (figure 21). You may still modify your selected classes throughout the entire open plan period.

PRE-APPROVED PLAN:

If you would prefer to submit a pre-approved plan, select GGGA-PREAPPROVATO on the initial screen (fig. 22), click OK and then "Prosegui compilazione Piano Carriera" (Continue with Career Plan) (fig. 23).

Avvertenze per la compilazione del Piano Carriera

Inizierà ora la scelta delle attività. In caso di messaggi di errore, verificare di aver rispettato le regole. Non utilizzare i tasti indietro o avanti del browser poiché potrebbe portare a malfunzionamenti. Al termine della compilazione confermare il piano attraverso l'apposito pulsante, i piani non confermati vengono eliminati

Who to contact for what

Careers Office

The Careers Office manages administration for your entire student career, from admission to re-enrolment and to getting your degree. It also deals with issuing certificates and getting qualifications and exams from other universities, including foreign ones, recognised.

With regards to the study plan, the Careers Office is the department responsible for supporting students with the technical aspects of the plan submission system via the Online Student Registry.

For administrative information, visit https://www.unimib.it/servizi/segreterie-studenti

For more detailed information on study plans and submission deadlines for the academic year, please visit https://www.unimib.it/servizi/segreterie-studenti/piani-degli-studi/area-scienze

The Science Careers Office hours (desk 7 in the **U17 Building** - Piazzetta ribassata Difesa per le donne) are as follows:

Monday from 13:45 to 15:45 Wednesday and Friday from 09:00 to 12:00

Email: segr.studenti.scienze@unimib.it

There is no telephone service available.
